- Urdu

PROFILE

A dedicated and ambitious Computer Science student with a strong foundation in software development, programming, and problem-solving. Experienced in developing web and mobile applications, including a Flappy Bird game, Amazon clone, Tic-Tac-Toe, and Hangman. Actively involved in university societies, with a proven track record of leadership and project management, particularly in organizing events like UCP TAAKRA 2024. Passionate about leveraging technical skills to contribute to innovative projects and aiming to make a positive impact through the establishment of a welfare trust.

PROJECT WORK

Flappy Bird Game Development

Developed a Flappy Bird game using HTML, CSS, and JavaScript, demonstrating proficiency in front-end development and game logic implementation.

Amazon Clone

Created a web-based Amazon clone, showcasing skills in web development, UI/UX design, and e-commerce functionalities.

Tic-Tac-Toe Game

Designed and implemented a Tic-Tac-Toe game, emphasizing logical thinking, problem-solving, and programming in JavaScript.

Tic-Tac-Toe Game

Created an interactive word search puzzle using C++, showcasing skills in programming, algorithm development, and user interface design. The project involved generating puzzles dynamically and implementing efficient searching algorithms, demonstrating a solid understanding of data structures and logic.

LEADERSHIP & VOLUNTEERING

UCP Welfare Society

Active member involved in organizing events, including a successful Iftar during Ramadan, demonstrating strong teamwork, leadership, and community service.

Debate Competition Management, UCP TAAKRA 2024

Managed the Debate Competition, gaining valuable experience in event organization, coordination, and public speaking.

IEEE Workshop on [Artificial Intelligence]

Organized and facilitated a workshop under IEEE, focused on [Artificial Intelligence]. Demonstrated strong organizational skills, effective communication, and the ability to engage and educate participants on advanced technical concepts.
